# Welcome to our Summer 2013 Auctions

Welcome to our Summer 2013 auctions. We are proud to once again bring you a great selection of auctions featuring something for everyone.

With this past winter being one of the longest in recent memory and boasting record snowfall, to say the least it's been an interesting spring. There isn't much we didn't see at this spring's auctions – cold weather, blizzards, poor road conditions, snow filled yards, buried equipment, followed by muddy yards and sunshine, followed by once again even more snow. It has been a spring that we won't soon forget. On a positive note, the equipment and land auctions were extremely successful. Crowds were large right through to the early May auctions. Unlike last spring, when heading into seeding there should be no concerns about early spring moisture. With the recent warm period of weather in early May let's hope seeding conditions improve. Grain & livestock markets are holding solid making right now an exciting time to be involved in the world of agriculture. Every year we have the privilege of working with many great people. Once again this summer, we have the opportunity to be selling for a great group of clients, offering an excellent selection of equipment. We invite you to participate in the many fantastic auctions we have scheduled. Take advantage of the opportunity to purchase quality used equipment where you get to set the price. At the same time go for a road trip and enjoy meeting some new people.

We hope you find our Summer 2013 Auction Catalogue a valuable resource. But don't stop there. Be sure to visit our website to find numerous equipment photos, more information (ie.) spec sheets, work orders etc. as well as a history of past auction prices. We are constantly upgrading our services to provide you with the information you need to be better prepared for auction day. Also, if you are unable to attend any of our auctions, be sure to use our live internet bidding service. We are continuously upgrading our systems with ongoing efforts to create an even better online experience for you. These are just a few of the things we offer while continuing to live up to our reputation of providing "the best farm auction service available anywhere." For 64 years and counting, our family business has been built on hard work, dedication, attention to detail and "Hands-On" personalized service that cannot be duplicated. Our team is looking forward to assisting you over the summer.

We look forward to seeing you this summer and would like to Thank You in advance for your participation at our auctions whether you attend in person or online.

From the Kramer Family and our entire auction team we wish you a safe and prosperous summer.

Neil Kramer

Brendan Kramer

Kim Kramer

Michael Higgs

**STATEMENT OF PRINCIPAL** Buyers bid with confidence at our auctions. They know at no time whatsoever will they be in the position to have to bid against the auctioneer. Kramer Auctions do not purchase auctions, we conduct them. We do not guarantee returns. We believe this process will interfere with the integrity of the auction system. An auctioneer should never be in the position where he is tempted to bid against his customers. Therefore, you as a bidder can rest assured that you will not be bidding on equipment pre-purchased or price guaranteed by the auction company, BUT only bidding on equipment that is owned by the sellers we represent.

**LIVESTOCK** 20 - Simmental cross 2nd calvers w/calves at foot bred Simmental. Note from May 5th - We worked on sorting the cattle and running them through the chute treating them, ready for pasture. Cows were treated with bovashield gold. Also the cows (simmental cross) are all second calvers. The cows we sorted to sell all have steer calves on them. The calves on the cows were treated at the same time with bovishield gold and utrabac7/som. This spring during calving season 85% of the cows calved in the first breeding cycle. Cows will be exposed to simmental bulls on May 20 which makes due date to be March 2, 2014. Last October we sold our steer calves which would be ofen off of heifers then, at an average shrunk weight of 725 lbs. No creep feeding; 3 yr old Simmental Bull

## Summer 2013 Behind the Block — Auction Trends

Numerous people, including active farmers, dealers and curious spectators, follow auctions closely for the latest market trends. There is no truer measurement of "current market value" than a properly planned, promoted and conducted Auction. Like any market, values change every year. Weather conditions, changing technology, commodity prices and simple supply and demand all factor in on the market. Below are some of latest trends we have been noticing. We hope you find our information a valuable resource when making your buying and selling decisions.

**TRACTORS** middle aged to late model 4wds (pre-emission controlled engines) market remains strong due to short supply. The value of certain track units softened slightly. We have not had enough sales of late model emission controlled units to comment on the market at this point. MFWDs remain strong and continue to have good demand. 2WDS large horsepower that have been previously soft have realized a sharp increase in demand. Small to mid-sized horsepower continues to draw steady demand.

**COMBINES** middle aged, low houred units have seen a recent increase in price with an increasingly strong market. Prices for late model units remain steady.

**TRUCKS & TRAILERS** single axle grain trucks seem to be regaining popularity and prices have increased sharply this year due to short supply for good low mileage units. Tandem axle grain trucks remain strong. Highway tractors that are middle aged to late model in nice condition with pre-emission controlled engines have seen a recent spike in value. Grain Trailers continue to draw good demand for clean well maintained units.

**SEEDING & TILLAGE EQUIPMENT** late model precision equipment is drawing strong prices due to increasing pressure as a result of some manufacturers being sold out of future supply 1-2 years ahead. Middle-aged equipment – Large units have decreased sharply, Mid-sized units remain steady, Small units continue to be strong. HD cultivators have sharply increased in value with an extremely strong demand and short supply. The market remains good for harrow bars & harrow packer bars. Land rollers continue to draw a good price.

**SPRAYERS** middle-aged to late model self propelled sprayers have maintained strong demand drawing good value at auctions. Pull-type sprayers remain steady or slightly softer.

**HAYING EQUIPMENT** remains steady. Bale processors and feeding equipment realized strong demand this spring due to the long winter and short spring.

**GRAIN AUGERS & GRAIN BINS** Augers are an item that has a consistent demand and value is always based on condition. Grain bins were strong but have levelled off in some areas this spring. The grain bin market varies from one area to the next. Unlike machinery the market for grain bins is fairly local due to transportation and moving expenses.

As you can see the overall market continues to be strong with some slight changes. If you are considering selling and want a more precise market value please feel free to contact our office for a no obligation evaluation of your equipment or check out our auction results online at [www.kramerauction.com](http://www.kramerauction.com). Kramer Auctions Ltd conducts 70-80 on-site auctions per year and 5 major consignment auction events.

## Late Spring 2013 — Real Estate Market Report

Since the turn of the year Kramers has sold or leased almost 4,000,000 worth of property - much of it farmland and all of it by auction. Prices have generally been holding well, however there does continue to be a variation in values between properties, governed largely by quality, location, availability and competition.

Regarding methods, the recent trend appears to be toward Timed Online Auctions, although there will always be a place for the live auction method. Timed Online Auctions take place over a period of 5 to 7 days. This gives Bidders time to think, plan and even to go back for another look before the final day of the sale.

Cultivated, pasture and recreational land are continuing the trend patterns set last year.

### The Hi-Lites:

#### MEOTA HOTEL

Sold by timed online auction January 31, 2013 = **\$185,000.00 (17 Bids)**

REAL ESTATE  
DIVISION INC

# Pfeifer Bros Auction — April 27, 2013 near Saskatoon, SK

Ken & Vern's parents immigrated to Canada, from Cavalier, North Dakota in the early Nineteen hundreds & settled in the Haultain area. On the original homestead they built a new house. The house was a T. Eaton's package built in 1915 & will be 100 years old in 2015 and in excellent condition yet. Their parents raised 6 children on the farm. During the earlier years, times were hard, but they raised all their own beef, chicken and pork, etc. A great deal of sweat and tears went into the farm, especially during the depression. Ken & Vern operated the family farm for decades. A dairy herd was established in 1947 and was dispersed in 1971. In 1960, Polled Hereford cattle were acquired and remained on the farm until 2012. After originally homesteading on a 1/4 section of land in the early 1900s, the Pfeifer farm was grown to 7 - 1/4s of crop land, 2 - 1/4s of pasture/hay land and 2 - 1/4s of pasture land that was all very carefully managed.

The two bachelors were a real genuine pair of iconic Saskatchewan farmers with a real passion for producing grain & raising cattle for a living. In the fall of 2012 Vern passed away at age 85. Today Ken resides in Saskatoon. He is 87 years old and sharp as a tack. Over the years the Pfeifer brothers had accumulated & maintained a pristine line of John Deere & New Holland equipment that was nearly all original owner, shedded. Bidders who attended the auction could not believe how farm equipment could be kept in this condition and really appreciated the value it offered. Pfeifer's premium, low-houred equipment attracted over 3000 people from across Western Canada and the United States to take part in the auction. Buyers said that it is nearly impossible to find equipment like the Pfeifers had to offer. After factoring in the possibility of major repairs, tires, etc that are more likely to be associated with used equipment with higher hours, the buyers could see the excellent value in buying equipment like Pfeifer's and were willing to pay a premium for machinery in that condition.

Auctions like the Pfeifer's are few and far in between. Some of the results are posted below.

2006 John Deere 8330 MFWD tractor - \$167,500  
1994 John Deere 7200 MFWD tractor - \$67,000  
1984 John Deere 4250 2wd tractor - \$48,500  
1966 John Deere 4020 2wd diesel tractor - \$18,500  
1965 John Deere 3020 2wd diesel tractor - \$18,000  
1963 John Deere 4010 2wd diesel tractor - \$10,000  
1998 John Deere 9510 Maximizer s/p combine - \$108,000  
2005 Bourgault 5710 29' air drill w/2005 Bourgault 6280 tow behind tank w/MRBs - \$92,000  
Noble 18' tandem disc - \$14,500  
2003 John Deere HX15 Flex-Wing rotary cutter - \$18,500  
1978 New Holland 1069 Stackcruiser s/p square bale hauler - \$49,000  
1994 New Holland 575 square baler - \$17,500  
1985 New Holland 358 mix mill w/ power bale feeder - \$15,500  
1987 Chevrolet Silverado 70 s/a grain truck - \$45,000  
1966 Chevrolet 50 s/a grain truck - \$13,750  
2011 GMC SLE Sierra 4x4 reg cab 1/2 ton truck - \$25,500  
2002 John Deere 4110 MFWD tractor & JD 47 quick hitch snowblower - \$12,000  
1994 Kubota L3600 MFWD tractor - \$12,000  
1984 Honda Big Red ATC200ES 3 wheeler - \$3,500
